Testemunho de alunos do curso 2017/18

This is a great opportunity for those of you who, like me, wish to enrich their knowledge of the Chinese language and culture. It has been an unforgettable journey for China certainly offers a wide range of experiences, with its people, culture, food and breathtaking landscapes. I'm sure you will have many stories to tell as I already do.

Clara

Since I've started studying Chinese I wanted to go to China and I thought it was impossible since money is always a problem when thinking of going abroad but then I found Confucius Institute and this new program that allowed me to study and travel in China. The overall experience has been great. In only 3 months I improved more than all my studying years in Portugal.

Miguel

Learning Chinese is probably one of the hardest things I have ever done, mainly because it requires everyday efforts and it's a language that you can't stop studying. Therefore I decided that I had to go to China in order to become fluent in Chinese, and when I found this "Chinese for Tourism" course I thought it was the perfect opportunity for me because I also study Tourism and Hospitality.

Three months have gone by, and I am loving this experience, everyday my Chinese improves a little bit and we get to know so much of their culture and habits, and also amazing people.

Jaime

Overall, the part of this pioneer course I could attend was very rewarding, particularly in which respects the colleagues I met in Tianjin, and the accompaniment from Professor Tian, who is always available to help us. Also, I am aware I was lucky with the colleagues with whom I shared this course, the Portuguese ones!
